NEW CHARGE FILED AGAINST CLARK

Denver District Attorney Mitch Morrissey has filed a new criminal charge against a man already accused in two separate murder cases.

Willie Clark (dob: 05-16-83) is charged with *Introducing Contraband in the First Degree* (F4).

Clark is currently in custody in the Denver County Jail, being held without bond in the January 2007 murder of Darrent Williams and the December 2006 murder of Kalonnian Clark. The new charge filed today alleges that on December 8, 2008, a plastic spoon that had been broken and sharpened into a cutting instrument was found in his cell during a routine search.

Clark is scheduled to be formally advised of the new charge on December 12, 2008 at 9 a.m. in Denver County Court, room 12T.
